About the program: The Ohio Teacher Evaluation System (OTES) Evaluator Training will prepare an evaluator of teachers, as defined by the role they serve in a Local Educational Agency (LEA) for effective, high quality and consistent staff evaluation, using the OTES Model, which is aligned to the OTES Framework, as adopted by the State Board of Education in November 2011. The three-day state-sponsored OTES training will provide a better understanding of the OTES Framework, including the Summative Matrix and Model, allow practice of skills such as scripting, evidence analysis/categorizing and coaching, and allow for sharing of resources and best practices in educator evaluation.
